

Tara Saree Requirements and Concerns

Requirements and concerns shared by the client:

- GST invoicing capabilities, including support for HSN codes, are required.
- Integration with Amazon, Flipkart, and Myntra is requested to sync the product catalog.
- SEO controls are required, including schema markup and performance optimization.
- Option B should include automated WhatsApp follow-ups for customer feedback, such as asking, "Did you like the product?"
- Automated loyalty programs and subscription features are required to reward repeat customers.
- Clarification is requested regarding the maintenance and support SLA (Service Level Agreement).
- Examples of websites previously developed by the team are requested for review.
- A customer rating and review feature is required.
- Customers should be able to submit photos of themselves wearing the saree.
- Customers who submit wearing photos should receive a 2% discount on their next purchase as a reward.
